Live, Cook, Love.

Majestic

→ Range cookers

→ Hoods

The invaluable range cooker that makes the kitchen unique.

A synthesis of beauty and functionality, Majestic is the masterful embodiment of the idea of a range cooker. A freestanding element that blends into every context and immediately becomes the protagonist of the furnishing, with a style of rounded lines, crafted details, fine finishes, solutions and technologies deriving directly from the world of the professional cooking.

Range cookers

Majestic range cookers are appliances that decorate the home thanks to their rounded shapes forged in pure steel with painstakingly made details. They are true gems of professionalism, designed for the kitchen in your home. They are available in a range of selected colours or in RAL Classic shades on request, combined with fine metallic finishes. Offered in a wide range of sizes (from 70 cm to 150 cm), they offer multiple set-up possibilities. The oven can be in sizes up to 90 cm or double in those up to 150 cm; with touch control and temperature up to 320°C. There are five hob configurations to choose from: dual gas burners, coupe de feu or fry top are some of the options available for the gas version, while the total induction version is available up to the 120 cm model with 7 cooking zones and bridge function.

Hoods

Air quality in the kitchen is a fundamental factor: that's why the Majestic collection combines the range cooker with highly efficient hoods, with perfectly matching aesthetics in design, colours and metallic finishes. In addition to filtering and purifying the air, Majestic hoods are fitted with infrared lights to keep food warm: just like in professional kitchens.
