Range cookers

Designed to easily blend in with the home kitchen decoration, with sizes ranging from 60 cm to 120 cm, the Pro Line range cookers offer uncompromised performance, focusing on the essentials: from the different types and possible configurations of the hobs, to the multi-purpose oven in single or double versions with temperatures ranging from 30°C to 300°C.

Designed and manufactured to last over time, they are offered in a choice of colours that allow you to create modern environments with a fresh and refined aesthetic design.

Hoods

Pro Line hoods improve air quality and decorate the kitchen thanks to their professional design and performance. They stand out for their noiseless operation and low energy consumption and are fitted with a LED lighting system.

Ovens

Pro Line ovens have 9 functions with timed start and stop. The very wide range of temperatures – from 30°C to 300°C – satisfies every cooking requirement. Programming is straightforward thanks to a simple button panel and a readily legible display. The internal insulation maintains the selected temperature effectively and without fluctuations, assuring even cooking.

Gas hobs

Resistant and easy to clean, the Pro Line gas hobs are made with a single thick sheet of AISI 304 steel, without sharp edges, for total safety and easy cleaning. Thanks to their slim profile, they fit flush with a minimum height difference and a perfect aesthetic effect. The cast iron pan supports form a single and stable support surface for the pots, to move them easily. High-efficiency burners, with a double row of holes and tilted flame, guarantee calibrated and even heat distribution.

Induction hobs

Pro Line induction hobs focus on simplicity and versatility. Aesthetic simplicity and ease of use, versatility in style and size, ranging from 30 cm to 45 cm.

The cooking space is large, the zones heat up quickly and temperatures can be controlled precisely.

Cleaning is extremely quick and easy, the level of safety is always high, for a relaxed kitchen where times and methods are adapted to the needs and goals of the cook.

The advantages of Pro Line appliances

Dual gas burners
with power up to 4.3 kW

Brass flame spreader with
non-stick nanotechnological
treatment

Highly specialised hobs
